Graduate Diploma of Customs Administration (1616CA)

Charles Sturt University's Graduate Diploma of Customs Administration provides professionals with advanced knowledge and skills in the field of customs and border management and has been designed for people engaged in both government employment and in the trading community. It has an international focus making it suitable for professionals from all around the world.

The course has been designed in collaboration with industry, government and international agencies, including the World Customs Organization (WCO).

Career opportunities

Graduation will provide students with a high level of employability. Graduates seeking employment or further advancement in the public sector will be able to demonstrate the skills and knowledge which government employers are seeking of their senior employees. Graduates seeking employment in the private sector will be able to demonstrate an advanced understanding of international customs compliance issues which will make them extremely valuable to businesses involved in international trade.
