WISETECH GLOBAL GROUP

Graduate Certificate in Customs Administration (1314CU)

Charles Sturt University's Graduate Certificate in Customs Administration provides professionals with advanced knowledge and skills in customs and border management. Our course has been designed for people in government employment and in the trading community. It has an international focus making it suitable for professionals from all around the world.

Our course has been designed in collaboration with industry, government and international agencies, including the World Customs Organization (WCO).

Develop advanced technical skills in traditional and topical aspects of international customs law and administration. You'll be prepared to effectively apply complex policy and practice in workplaces focused on cross-border trade.

Gain advanced judgement, adaptability and responsibility as a practitioner dealing with, or working in, customs administrations. The course also provides a pathway for further learning.

Career opportunities

This course enhances prospects for employment and advancement for those with, or seeking, careers in customs administration, other public sector agencies and businesses involved in cross-border trade. Graduates will develop skills and knowledge that will be highly attractive to employers in these fields.
